Subject: Highlights of the Tentative Agreement

---

Dear HUCTW Member,

As we wrote in an email message last week, our Union and the University have reached a tentative agreement on a new contract. The settlement includes some important new ideas, benefits improvements and strong raises. A ratification vote will take place on Tuesday, June 19. In the meantime, departmental union meetings are taking place in every section of the University, for discussion of the details.

We have posted a document on the union website which lists all of the significant changes and new programs in the tentative agreement.

An even more detailed summary of the new agreement will be posted next week, along with voting times and locations for the ratification election on June 19.

To learn more, please see the Highlights of the Tentative Agreement at:
