Subject: Exploring the issue of student debt

---

Dear HUCTW members,

Are you finding your student loans difficult to manage?  
Would you like to help develop ideas for Harvard programs to assist staff in managing student debt?

Our union is preparing for future discussions with the University about the problem of student debt for recent graduates. Within a few months, we will begin exploring possible solutions in the new Joint Working Group on Life Cycle Issues. We encourage **you** to share your experiences with student loans by scheduling an appointment with HUCTW.

Please contact Ben Mendelson at [ben@huctw.org](mailto:ben@huctw.org) if you are willing to share your story in an informal interview or a focus group.
