Renters and Owners--reminder of "Save money. Save energy. Be comfortable. Be greener" workshop

The Harvard University and HUCTW Joint Housing and Transportation Committee is sponsoring a workshop to inform our community about a variety of programs which can help both homeowners and renters save money. Energy efficiency expert Michael Berry from the Massachusetts New Home Energy Star Program will discuss programs and also talk about things you can do in your own home to conserve energy and money during the winter season.

Please RSVP to Jonathan_Mascia@harvard.edu by Monday, Oct. 12.
Free energy-saving gift to the first 35 attendees!
