Subject: Ribbons, buttons, and magnets

HUCTW Friends,

Beginning this week and continuing through the month of May, HUCTW leaders and representatives will be distributing new ribbons, buttons, and magnets with the slogan "**Harvard Works Because We Do.**" We're hoping you will wear or display the new items as part of an important HUCTW visibility effort.

We're reaching that interesting and important point in negotiations for a new Agreement where the discussions begin to shift from exploratory and informational to more substantive and specific conversations. The next few weeks are a great time for us to show the whole Harvard community that we are a creative and energetic group of Harvard citizens, hopeful about our working futures and committed to a constructive negotiation process.

Please keep your eyes open for the new ribbons, buttons, and magnets. When they arrive, please put them up in a visible place -- on your jacket or backpack and your cubicle or lab bench.

Let's make sure all of our friends and colleagues in the administration, faculty, and student body can see our pride in our work and our Union, across the campus every day. We've also created some easy ways to show your union pride and support through your computer, facebook page, and bulletin board in the form of backgrounds, screensavers, email signatures, posters, etc. -- see our [Negotiations Visibility Page](#) for downloadable images:

http://www.huctw.org/negotiations/2010_contract/visibility

To take the visibility effort one step further, it would be great if you could take a digital photo of union members with ribbons, buttons, etc., and send it to us at huctw.info@huctw.org

Thanks for your help!
